Goes places bigger excavators can only dream about.

If you work on tight residential or inner city jobsites, you need an excavator that fits through narrow openings and works comfortably in tight quarters. Meet the new ViO25-6A. This scrappy, go-almost-anywhere true zero tail swing excavator works anywhere you can fit the tracks. It also comes with a fuel-efficient 20.4-hp Tier 4 Final engine that delivers unexpected power for its size, with less environmental impact. We apologize if it gives those bigger excavators nightmares.

INNOVATIVE FEATURES

Advanced Operation Control System

The new digital Smart Assist control system allows you to monitor up to three months of operational history. Because this state-of-the-art system centralizes control of machine operation information and maintenance support information, it's never been easier to maintain a timely, efficient service process.

Quick Coupler System

The standard hydraulic Quick Coupler makes changing buckets fast and easy. With the exception of fitting and removing the safety lock pin, the entire operation is performed electronically while you're seated in the comfort of the cab. Less hassle. Less downtime. More productivity.

Easier To Service Than Your Car

The innovative design puts virtually every major component – engine, hydraulic system, starter, generator, battery – right at your fingertips. Because routine filter and grease fitting checks are easier and quicker, you can perform them more often, extending the life of and improving the durability of your machine.
